## What's it all about?

*This event is organised by local people to have fun and to let organisations know what we want for the area. We want to build a vision for the neighbourhood that is led by people who live here. There will be talks, ideas, music, dancing, food, pop-up building projects and community fun over the weekend.*

*At the end of it all, we will produce a brochure for every home in the area, so we can show people what we want when the consultation on the new development happens. We want to be helpful, but also get the best deal for the community, and we need your voice.*

*Have your say!  
It's our kids future.  
It's our Hammyhill.*

**Disclaimer - All views will be noted and may end up in the brochure**
